**Amie Jayne** @Amie\_OT

@ROTTERsExeter I have struggled to find specifics and i know I missed some kinda deadline..... all in all I know very little #OTalk

**Lynsay Duke** @DukeLynsay

@ROTTERsExeter I've had a sideline in that I had a NIHR band 7 internship as a Research champion for a year. On the pathway I seem to got stuck. Applied for pre doc bridging scheme, unsuccessful and told not enough experience! #OTalk

**Nhu Milton** 🇺🇸 @nhumilton

@ROTTERsExeter I understand that there are 5 levels of award available, including internships, pre-doctoral clinical academic fellowship & clinical doctoral research fellowship. Is that correct? #OTalk

**Bill Wong, OTD, OTR/L @BillWongOT**

@ROTTERsExeter I think this is the same for NIH funded research postdocs in the USA. I initially wanted the opportunity. The only problem perspective- the financial support is not too appealing in comparison to a clinical job. #otalk

Great discussions so far. Next question incoming... Q3. How long do you think an application takes? @OTalk\_ #OTalk

@ROTTERSExeter @OTalk\_ For CDRF: your own development & training plan, career trajectory, PPI, your study (question, design, methodology), supervisory team (Clinical & Academic), wider team (clinical Trials Unit, costings). The IBE guidance is very helpful, be sure to read it carefully #OTalk

@ROTTERSExeter @OTalk\_ That should read "The NIHR guidance is very helpful" #OTalk

**ROTTERS Exeter** @ROTTERSExeter

@logan\_angie @OTalk\_ I second this entirely- the applicant guidance barely left my side in the last 12 months. Crucial to make sure every point is addressed. @OTalk\_ #OTalk

**OTalk @OTalk\_**

@DukeLynsay @ROTTERSExeter @OTalk\_ @otalk You clinical academic mentor doesn't have to be from the same profession. Mine isn't. have several that I approach for different things. And they have changed over time with my changing needs. Mentoring different to research supervision #OTalk
